

Clark Forklift Chain

At present, there are no less than 350,000 Clark forklifts performing globally, and in excess of 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific items designed for 20 unique models of forklifts and automated equipment. Your local Clark Seller is your total source for availability of all your components requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the globally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this system is extremely economical and permits minimal use of resources. Developed to guarantee maximum efficiency, this system is designed to discover and acknowledge the most effective methods for production plant stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to improve the proficiency and excellence of their products while minimizing expenses. The new value engineering program combines progressive product development and provides improved client support and service within the industry.
